

Follow the steps below for a quick guide to getting the most out of ClinicalKey.

ACCESS

1. Type a term into the main **Search Bar** available on every page.
2. Use the **AutoSuggest** feature by typing in just the first few letters of a term and choosing from a list of relevant choices.
3. Hit the **Search Button** to return results.

FILTER AND PREVIEW

1. **Filter Search Results** by clicking on **Content Type** in the left hand column. You can also filter by specialty, study type and date.
2. Scroll through the **Search Results Page** and click on the double arrow to preview content in the right panel.
3. Click the title of the search result to open it in the **Content Reader** and view full content.

VIEW

1. Left panel includes **Outlines** or **Table of Contents** for easy navigation.
2. Center panel includes full-text content that can be expanded by clicking on the arrows on the left and right panels.
3. Right panel includes additional information.

PRESENT IMAGES

1. From the **Search Results Page** center panel, click the check boxes next to desired images.
2. Click the **Plus Sign +** next to the **Presentation Button** to add them to the Presentation Maker.
3. Click the **Presentation Button** to open the Presentation Maker and review selected images.
4. Once you're finished, click the **Export to PowerPoint Button** and view your presentation.
